Seed Library Donation Form

Donating to the Seed Library

- We accept donations of native, organic, openly pollinated vegetable, herb, and flower seeds. We accept seeds grown and collected in Durham Region, Peterborough County, and Northumberland County by home and community gardeners as well as leftover packaged seeds from local companies. Please let us know if you would like to donate seeds outside of these parameters!
- Seeds must be mature, dry, and free of dirt, debris, or chaff.
- Seeds should be placed in envelopes or bags with a donation form. Seal with tape, staples, or reuse our envelopes.
- Donations can be submitted at a service desk at any Library branch.

Some Things to Keep in Mind

- Only save seed from healthy plants.
- Save from multiple plants for genetic diversity.
- Do not donate seeds from hybrid plants or plants that may have cross-pollinated with other varieties.
- Do not donate seeds that are over three years old.
